

## For Immediate Release:

### **Slaughter Company (SCI) announces the release of their all-new 260 Series of Ground Bond Testers**

**Lake Forest, Illinois, January 2016** – SCI (Slaughter Company Inc.), the leader in making electrical safety simple, announced the addition of the 260 Series of Ground Bond testers to their product line. An improved interface that eliminates confusing menus and redundant button pushes allows manufacturers to set-up and run Ground Bond tests in a matter of seconds. The 260 Series also provides common sense security settings that make it easy to set the permission levels. With five programmable memories and a rugged and reliable design, the 260 Series is well suited for production line applications. Optional USB interface provides a simple way for manufactures to automate their production line.

The 260 Series features the following models:

- 264**     40 Amp Ground Bond Tester
- 266**     60 Amp Ground Bond Tester

The 260 Series is safety agency listed and will be available in early January, 2016. Contact [info@hipot.com](mailto:info@hipot.com) for pricing.

SCI traces its beginnings back to 1953 when their founder, Elmer Slaughter, had an idea for a better product to meet the needs of the electrical safety testing industry. All SCI testers come complete with a standard 1-year warranty and a 45-day Customer Experience Guarantee. Every order is shipped within 1 business day.

Contact the company at 1-877-504-0055, e-mail at [feedback@hipot.com](mailto:feedback@hipot.com) or visit their site at [www.hipot.com](http://www.hipot.com). For editorial questions, please respond to Rebecca Alessi at [Rebecca.alessi@hipot.com](mailto:Rebecca.alessi@hipot.com).
